02 POSTER CAPTION

The caption was written to be friendly, engaging, and informative. I used a casual, welcoming tone to resonate with students, while making sure key details like dates, ID requirements, and packing tips were clearly included. I structured it with emojis and short lines to make it easy to skim, since most users scroll quickly on Instagram. The CTA (call to action) directs students to the bio link or QR code for more info, keeping the caption short but action-oriented.
